WHAT IS THE PROJECT ABOUT ?

The project aims to cater to the educational needs of young individuals by offering e-learning opportunities to develop or their professional, entrepreneurial, and digital skills within the cultural and creative industries. It utilizes creative and innovative technologies to accomplish this goal. The primary focus is on reaching out to youth who have limited access to educational opportunities or are unemployed (NEETs). However, the project is designed to be applicable and beneficial to the broader youth population interested in pursuing education and employment in this specific field.

WHAT HAVE WE DONE SO FAR ?

After desk research and questionnaires, we created the EPICURIOUS EU Report. where we gathered valuable insights into the knowledge and understanding of the Cultural and Creative Industries (CCI) and the Creative Economy among NEETs in seven European Union countries.

WHAT'S NEXT ?

The Entrepreneurship skills Manual

The Entrepreneurship Skills Manual is an educational resource that the partners will create to facilitate a hands-on approach in the cultural and creative industries (CCI). It consists of both theoretical and practical content aimed at generating awareness about the CCI sector and the potential employability opportunities within it.

Stay tuned!
